Dear Mr. Ambassador:

When I was in Athens I had the pleasure of lunching with the King and Queen and they told me of their trip to the US in October.

I do not know whether they will have time when they come to New York to come up to Hyde Park but if they do, I hope you will simply let me know how many there will be in their party and where to meet them at my husband's memorial as I would like to take them through the house and library myself.

I have written to get some material for the Queen on things she is interested in. Some of this will come after I get back on August 2nd though I hope some of it can be mailed to Her Majesty before then.

If the Queen should want to see a settlement house and some of the new arrangements in housing projects, I told her I would be very glad to take her but there may be someone else you would prefer to have do so.

If you can let me know the dates for Hyde Park or when they are going to be in New York, I would be grateful for I am arranging some speaking engagements in October and I would not like to have them conflict.

Very sincerely yours,
