phenomenon in America in general.

We should be very grateful to You if we could obtain your answer before the publishing of our next issue, which is on the 10th July.

Yours faithfully

Dear Madam,

An extending article on your arrival to Yougoslavia has been published in our newspaper recently. It has aroused such an wide-spread interest with our readers that our editorial board has got an enormous number of letters asking to beg You to be so kind as to answer some questions through our newspaper.

Considering your busy time we should be obliged to You if you could answer only the following question:

Our public opinion was astounded learning from the newspapers the fact of your being questioned by the Commission for the investigation of unamerican activity. What can You tell us about that and about machartism as a phenomenon in America in general.

We should be very grateful to You if we could obtain your answer before the publishing of our next issue, wich is on the 10 th July.

Yours faithfully

Editorial board of the greatest jugoslav
weekly newspaper "N I N"

foreign editor
